

December 25 / January 26 Wichita Recovery Coalition

NEWSLETTER

THE WICHITA RECOVERY COALITION

The coalition was developed to connect recovery service providers and identify gaps in treatment and recovery in the Wichita area.

Through connecting community partners and sharing resources, the coalition has identified initiatives to break down barriers to recovery.

Our Key Initiatives:

Housing

Communication

Development

Adolescents

December Holiday Luncheon with Suspenders4Hope

Coalition members met for a networking luncheon:

Marci Young with Suspenders4Hope / WSU talked to us about their Hope and Care kits that assist with mental health needs and harm reduction rooted in care for people regardless of their relationship with substances.

These are practical tools that not only save lives but ensure that people feel seen.

They also offer trainings for healthcare professionals encouraging more prescribers for medications for opioid use disorder. (MOUD)

January Meeting Highlights w/ Episcopal Social Services Breakthrough Clubhouse

The discussion examined how recovery systems may unintentionally exclude individuals with co occurring mental health and substance use conditions through rigid policies, fragmented services, or narrow eligibility criteria.

Group Activity

A group discussion highlighted bright spots, including programs in Wichita and beyond that use integrated, person centered, and peer informed approaches to improve engagement and outcomes.

The conversation concluded with a focus on small, realistic actions such as improving coordination, increasing flexibility, and reducing administrative barriers to make recovery supports more accessible and inclusive.

Mark your calendars:
Feb. 17th @ 2pm

Becca Johnson, Community Service Representative for District 3 with the City of Wichita, will be joining us!

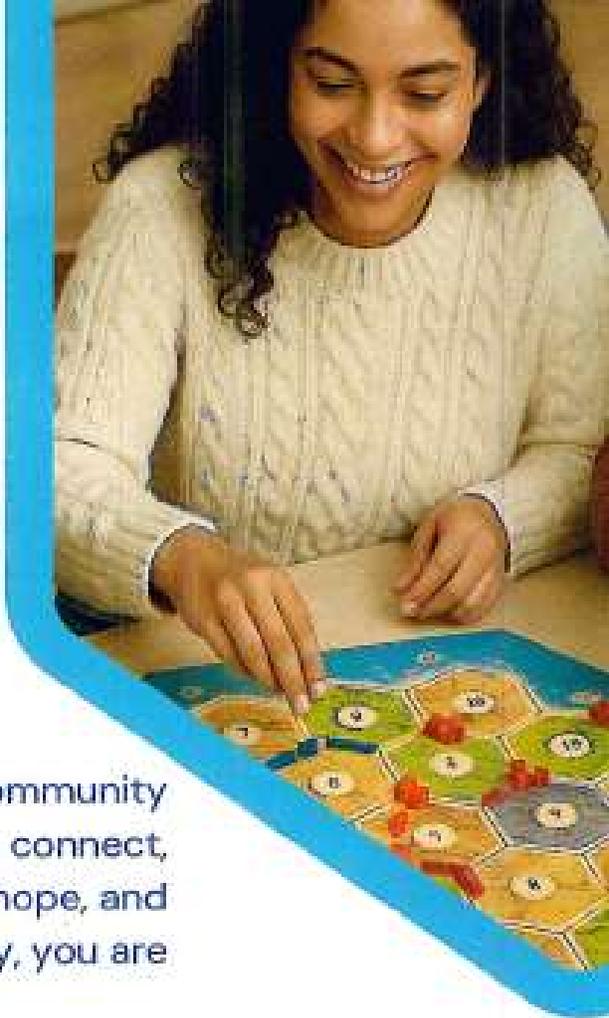

She will speak on the importance of civic engagement and its intersection with recovery.
